I have a **Master's degree in Computer Science** and nothing bugs me more than doing the same thing twice. This is why I am highly interested in **process automations and abstraction** of workflows. My free time is all about beach volleyball, **mobile app development** and recently, I have started tinkering around with **Open Source**.

EDUCATION

M.Sc. Computer Science

Thesis: **Anthropomorphism, Hypocrisy and their Effects on Behavioral Change or: Are Chatbots the Better Messengers?** (graded with 1.0)
